ESCAPE RESPIRATORS

Escape respirators **SPASCIANI M 900** are devices provided with gas filters **ABEK15** (Gases) or **ABEKP15** (gases and particles). These innovative products yield the memory of the silicone to reduce their bulk to a minimum.

Thanks to their ergonomic and robust polypropylene high visibility housing they are compact and easy to carry devices.

The ergonomic design with skid-proof surfaces permit the safe and easy handling of the devices.

M 900

The escape respirator **SPASCIANI M 900** is provided with gas filter **ABEK15** (Gases) or **ABEKP15** (gases and particles).
This innovative product yields the memory of the silicone to reduce its bulk to a minimum.
The silicone of the facepiece makes the mask very comfortable and eases the leak tightness on the user's face. All that minimizes donning time.

The **ABEK15** filter gives a low breathing resistance and gives protection from a number of toxic gases for at least 15 minutes. The headband, soft and stable has two anchorage points. The halfmask has a perfect tightness on the face and the honeycomb design of the front of filter grants a low breathing resistance.
SPASCIANI M 900 is a comfortable product and easy to use and don even with gloved hands. Its minimum size does not interfere with the escape pace.

Comfortable head strap

Silicone mask

Exhale Mask for P version

Honeycomb design to minimize breathing resistance

Characteristics and advantages
• Light and compact
• Quick and easy to don
• Easy to carry along in the pockets or at the waist belt
• Big handles for gloved hands

Option:
REFURBISHING KIT: M900 after 5 years can be refurbished

M 900 high visibility cases are compact and resistant, a built-in clip allows for portability. Very robust they protect from atmospheric agents and shocks and are provided with a sealing label and a OR gasket that ensures airtightness.
The loop for the belt is 50 mm wide thus making it easy to hang the case to it or to the work garments granting great stability.
