

DUO

DUO is a professional, durable, decontaminable facepiece ideal for use during the handling of hazardous chemicals, toxic gases, solvents, dusts and spray painting.

DUO shall be used together with filter cartridges SPASCIANI series 2000 produced in accordance with EN14387 & EN143. Filter cartridges can accept special prefilters which prevent the clogging of the particle filter in particularly dusty environments.

Kit Duo

KIT DUO is composed of a professional DUO facepiece and a couple of filter cartridges selected from those compatible.
