

DUETTA

Head band made of an elasticated webbing and a nape rest made of nylon.

2 adjusting buckles

Soft co-moulded sealing edge for a comfortable fit

Rigid shell giving strength and incorporating the bayonet connection; made of shock and solvent resistant plastic

Exhalation membrane

DUETTA is the ideal facepiece for use during spray painting, crops spraying and in the handling of hazardous chemicals, toxic gases, solvents and dusts.

The soft edge comfortably seats on the face contour while a rigid shell holds the cartridges evenly distributing masses.

DUETTA shall be used together with filter cartridges SPASCIANI series 2000 produced in accordance with EN14387 & EN143.

Filter cartridges can accept special prefilters which prevent the clogging of the particle filter in particularly dusty environments.

KIT DUETTA is composed of a DUETTA facepiece and a couple of filter cartridges selected from those compatible.

Kit Duetta
